## RMB-SM SURFACE MOUNT REMOVABLE BOLLARDS | **RMB-SM**

*Optima RMB-SM surface mount removable bollards are acting like fix bollards however they can be removed manually. RMB-SM surface mount removable bollard has internal locking hardware. The key-lock system is located on the upper part of the bollard. Because of its aesthetic design, it can be installed at any building. A surface mounted bollard is installed directly on the road; therefore it does not need any excavation or civil works.*
